Valencia
ESTABLISHED 1972

When Valencia Guitars was first founded in Melbourne Australia in 1972, our first instruments reflected our vision to provide student guitarists with playable instruments of exceptional quality and value for money made to the highest possible manufacturing standards.

For more than four decades these four distinct attributes have remained at the heart of the Valencia culture.

Valencia is now the No. 1 selling guitar brand in many countries and, arguably, the world. Thousands of music stores around the world stock Valencia as their main classical guitar line. These guitar experts do this because Valencia guitars represent the very best value for money on the market! It's for this reason alone that millions of guitarists around the world have started their musical journeys on a Valencia guitar.

Valencia guitars are expertly crafted in three Southern China factories and in our own, purpose built manufacturing plant in Surabaya, Indonesia under the close supervision of a team of fully-qualified guitar technicians employed exclusively by Valencia.

OUR VISION: **is to provide guitarists with exceptional quality and value for money guitars made for excellent playability and to the highest manufacturing standards.**

OUR VALUES

At Valencia we are committed to the highest standards of production, ethics and integrity. We care for our employees and their families, our customers and users of our products and to the society in which we all live.

- Every Valencia instrument is built with a purpose – to provide the world with quality, affordable instruments that enhance and inspire a lifetime of playing music.
- Every Valencia guitar is craftsman built using the best selected sustainably harvested tonewoods.
- We continually strive to conserve resources, preserve natural habitats and prevent pollution.
- Our factories conform strictly to local and international labour laws.
- To ensure our production and quality standards adhere to our values, Quality Control in all our factories is overseen by a team of fully-qualified guitar technicians employed exclusively by Valencia.
- With the opening of our own purpose built factory in Surabaya, Indonesia, our team is committed to produce instruments with features and specifications far superior to those offered by our competitors in similar price-points and unprecedented in the history of guitar manufacturing.

The Valencia guitar brand was created in Melbourne, Australia in 1972.

Due to the sub-standard quality of beginner nylon-string guitars available at the time, Valencia Guitars was established to provide student guitarists with quality, playable instruments at affordable prices.

Valencia guitars were originally sourced from a number of factories in South Korea. Before long news of these exceptional guitars spread around Australia and in the space of a few short years became the biggest selling guitar in the country.

In 1982 production of Valencia guitars was moved to the largest and best guitar manufacturing plant in the world at that time. This South Korean company manufactured Valencia exclusively for the next 7 years allowing Valencia to grow from being solely a beginner's guitar into a guitar range covering beginner to intermediate players. Also during this time we expanded the product range to include acoustic, electric and bass guitars under the Valencia brand name.

By 1989, the cost of manufacturing quality beginner to intermediate guitars in South Korea became so prohibitive that Valencia production was moved to two separate manufacturing facilities in Taiwan. At the time of this move a decision was made to take Valencia back to its roots and return solely to producing nylon-string classical guitars.

In late 1997, exhaustive research and testing found the manufacturing quality of guitars from some Chinese factories had improved significantly to the point of meeting Valencia's stringent quality standards. It was determined at this time to move the production of Valencia to its third country of manufacture: China.

By late 1998 production capacity in the factories manufacturing Valencia had grown to the point where it was decided to begin world-wide distribution. As a result, Valencia Guitars rapidly became available in over 84 countries around the world and are now distributed by many of the largest wholesalers in their respective markets.

In August 2015 we commenced production of new Valencia models in our own, purpose built guitar manufacturing plant in Surabaya, Indonesia. This site was selected because of its proximity to ample supplies of tonewoods and because of the stable, temperate climate which is so ideal for manufacturing quality guitars.

TIMELINE

1972
- Valencia Guitars brand created in Melbourne, Australia
- Manufacturing begins in a number of factories in South Korea

1973
- Valencia guitars experiences enormous sales growth Australia-wide

1982
- Valencia guitars manufactured exclusively in South Korea by the world's largest guitar manufacturing plant

1985-1988
- Valencia produces a range of acoustic, electric and bass guitars

1989
- Valencia production moved to two factories in Taiwan
- Valencia returns to being exclusively a classical guitar brand

1997
- Valencia production moved to three factories in Southern China

1998
- Valencia begins world-wide distribution to more than 70 countries

2013
- Valencia sales reach 3 million guitars world-wide

2015
- Valencia production begins in company owned, purpose-built guitar manufacturing plant in Surabaya, Indonesia

2016
- Valencia Guitars now available in 84 countries - truly a world brand

SERIES 150

Get the mellow sound of nylon strings with the Valencia Series 150 classical guitar. The basswood body delivers warm tones with great projection. A comfortable nato neck offers the ideal shape, width and string spacing for the classical player. Series 150 guitars are available in six vibrant colors.

Whether you're a very young player or, a little older, the Series 150 guitar range offers a choice of instrument sizes to ensure a correct fit for all players. Series 150 guitars are available in full-size (suitable for adults and larger players) and 3/4, 1/2 and 1/4 sizes if you're looking for a smaller size to suit younger, smaller players). We also offer full-size and 3/4 size, left-handed models in natural and black gloss finish only.

The Series 150 range also includes a packaged GUITAR KIT including natural and black gloss finished guitars (in all the most popular sizes), a Valencia-branded nylon carry bag to protect your guitar, and an electronic guitar tuner.
This affordable range of instruments is great for beginners and students alike. From flamenco to jazz to classical, the Valencia Series 150 is ready to perform.

Available As:

- Guitar Only — 4/4, 3/4, 1/2, 1/4 size in natural gloss finish and five new, vibrant colors.
- Left Hand Guitar Only — 4/4 and 3/4 size left hand models in natural and black finish.
- Guitar Kit — 4/4, 3/4, 1/2, 1/4 size in natural and black gloss finish. Kit includes: Guitar, Electronic Tuner & Nylon Guitar Bag.

All models supplied with full-color, gift-box packaging.

VC154CE

SERIES 150

To complement the Series 150 student/beginner range, we present an expanded selection of full-size guitar model options not previously offered in this price range. The cutaway electric/acoustic model is available in natural and black finishes and features the following pickup and pre-amp system combinations built into the guitar:

- VC154CVT – a VT200 pickup and pre-amp with 1 volume and 1 tone control, and
- VC154CE - a G04, 4-Band EQ Pre-amp with a built-in electronic tuner to ensure accurate, high quality amplified sound.

Available as:

- Cutaway Electric Acoustic Guitar — Two 4/4 size models in natural and black gloss finish with built in pickup and pre-amp systems.

All models supplied with full-color, gift-box packaging.

Wine Red

SERIES 200

Manufactured to our exacting standards, in our own factory in Indonesia, the Series 200 starts with a sitka spruce top, nato body and jabon neck for balanced tone. A distinctive, see-through satin finish reveals the inherent beauty of our tonewoods. An ebonized mahogany fingerboard and mahogany bridge completes the elegant look.

Available initially as full size only, the range comprises both right and left hand models.

The Series 200 range is complemented by the introduction of our newly developed "Hybrid", Thin-Neck model. Featuring a 45mm neck width (at nut) with 650mm (25 5/8") scale length on a standard size body, the Hybrid is especially designed to accommodate the smaller hands of some beginner players. For superior stability and strength the neck of this model features two central reinforcing strips of rosewood installed longitudinally along the entire neck length.

Available as:

- Guitar Only

4/4 size in antique natural finish and three new colors.

4/4 size left hand model in antique natural and classic sunburst finish.

4/4 size "Hybrid" thin neck model in antique natural and classic sunburst finish.

All models supplied with full-color, gift-box packaging.

Series 350

- Travel Guitar / Guitar Lele

Natural

SERIES 350

A versatile, ultra-compact size instrument, the Valencia Series 350 nylon-string Travel Guitar / Guitar Lele is perfect for guitar players looking for a travel guitar, as well as, ukulele players discovering guitar playing for the first time. With six strings tuned to A-D-G-C-E-A in standard guitar intervals, the instrument is ideal for extended–range ukulele arrangements or for the player wanting a smaller bodied guitar.

Thanks to its spruce top and mahogany body with arched back the Series 350 provides a rich and full sound despite its compact size. The mahogany neck features a 52mm (2 1/16th") nut width for the feel of a full size guitar. With extra touches like a real-bone bridge saddle, rosewood fingerboard and bridge along with nickel tuners the Valencia Series 350 guitar plays and sounds as good as it looks.

Available as:

- Guitar with Gig Bag

Travel Guitar / Guitar Lele in matt natural finish.

Supplied complete with Gig Bag and gift-box packaging.
