DEAR CUSTOMER,

Please carefully read and strictly follow the owner's manual when you use your GLX MG-10 guitar amplifier.
If you have any question, please contact your local dealer.

THANK YOU FOR PURCHASING OUR PRODUCT

To assure the finest performance, please read this manual carefully. Keep it in a safe place for future reference.

CAUTION
RISK OF ELECTRIC SHOCK DO NOT OPEN

The note of exclamation within an equilateral triangle is intended to alert you to the presence of important operating and servicing instructions.

The lightning flash and arrow head symbol within an equilateral triangle is intended to alert you to the presence of danger.

AC 240V~50Hz

CAUTION

All the safety and operation instructions should be read before operating the apparatus. All warnings on the apparatus and in the operation instructions should be adhered to. All operational instructions should be followed. The safety and operating instructions should be retained for future reference.

1. Connect the amplifier ONLY to a properly grounded AC outlet of the proper voltage for your amp.
2. Make sure the power cord is not being pinched, stepped on or heavily hustled.
3. Do not block any ventilation openings on this amplifier.
4. Do not operate near any heat source.
5. Do not expose this amplifier to rain or moisture.
6. Disconnect the power cord if the amplifier is not in use for a longer period.

7. To reduce the risk of electric shock, DO NOT remove the cover.
8. Refer to qualified servicing personnel for any repairs to the apparatus.

PANEL DESCRIPTION
