MUFFY Smile

Cool earmuffs for kids

Concentration problems

Around 10% of school-going children have difficulty concentrating in class and are easily distracted. Classes are becoming steadily bigger and more restless, increasing this problem. The Muffy Smile children's earmuff has been specially designed to cope with this. Children can concentrate better by regularly wearing the Muffy Smile in class, leading to better school performance and more peace in the class. Children are happy with their Muffy!

Multifunctional

The Alpine Muffy Smile earmuff has been specially developed for better and more concentrated learning and reading, in school and at home. And of course the earmuff can also be used to protect children's ears against excessive noise, among other things during parties, parades, fireworks, car and motorbike races and concerts.

Fits all

The robust and comfortable Alpine Muffy is made of high-quality material. The adjustable headband covered in soft fabric fits any child's head so they won't grow out of it. The Alpine Muffy earmuffs can be worn by children of all ages. However, we recommend that they are not used for children less than 2 years old.

Hip design

The cheerful yellow colour and the laughing smiley imprint ensure that both boys and girls will wear the earmuff with pleasure in the class.

Protect&Go bag

Alpine has designed a special case to store the earmuff handily and hygienically. Each package contains a free Protect&Go bag.

Unique product features

- Very comfortable because of its soft headband

MUFFY Smile

Dutch Design

The design of the Alpine hearing protectors is an exclusive Dutch Design.

Alpine Hearing Protection - Consistently innovative

Alpine Nederland B.V. was founded in 1995 and is one of few manufacturers in the world with hearing protection as its core business. We are continuously working on improving our products, in collaboration with end users. Alpine earplugs are sold across the globe in over 40 countries. All Alpine products have been officially tested by independent inspection bodies, and have the CE certification.
