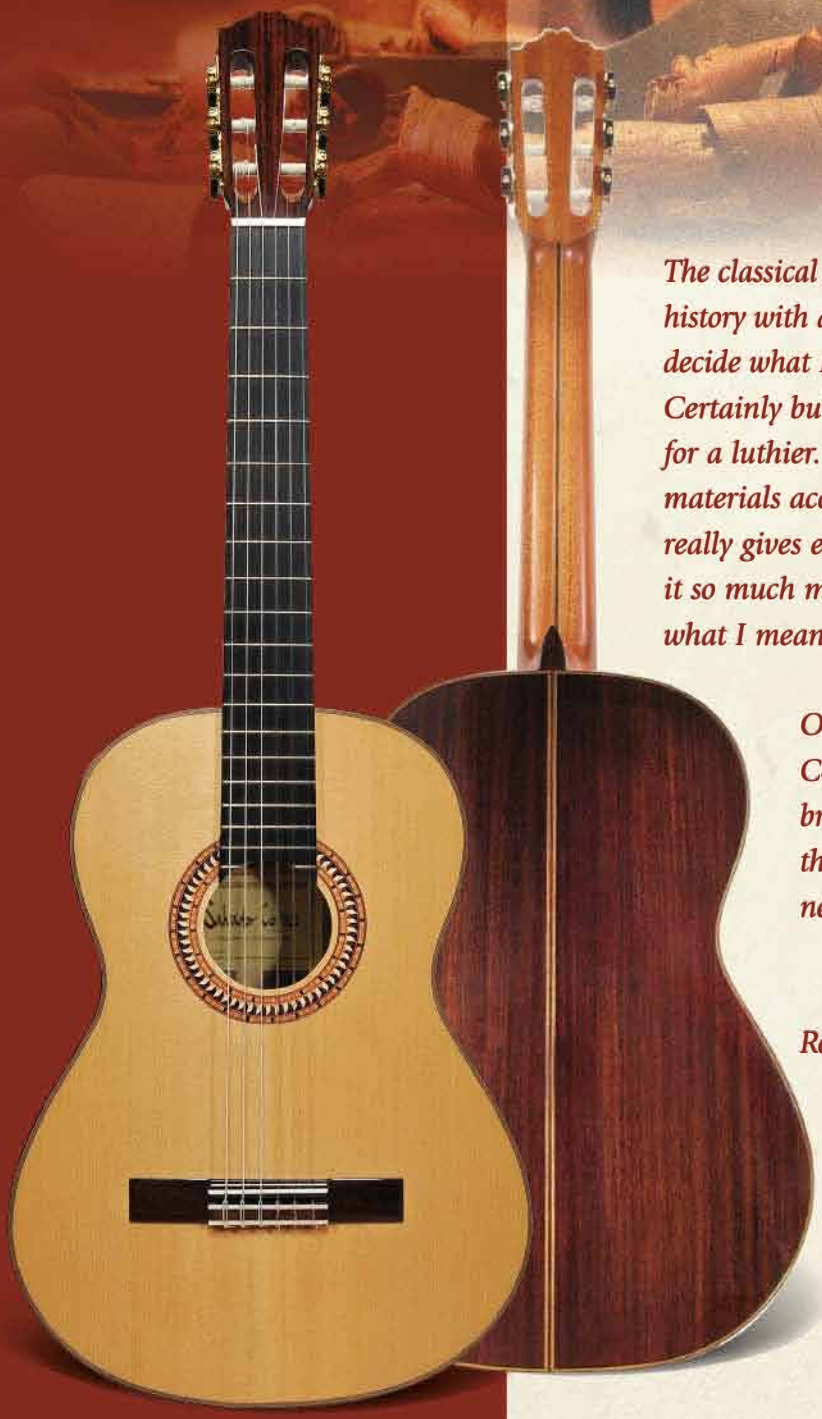
A TRADITION IN CRAFTMANSHIP



The classical guitar is truly a great instrument. Steeped in history with a sound that is instantly recognisable. I can't decide what I enjoy more: building one or playing one. Certainly building a Salvador Cortez is a true dream for a luthier. Selecting and working with top quality materials according to traditional Spanish methods, really gives each instrument an individual soul, making it so much more than just a guitar. Try one and see what I mean!

On behalf of our complete staff at Salvador Cortez I thank you for your interest in our brand. We take great pride in every guitar that leaves our workshop and we hope the next one will be yours!

Recibe un cordial saludo,

José Antonio Pedrosa
